

# HEALTHY SOILS INC ..... FIELD DAY

**"BINDAREE" 42 KM FROM ROCKHAMPTON  
SAT 12TH JULY**

**"CARBON, PROPERTY PLANNING, FEED BUDGETING  
in the Rockhampton region."**

Healthy Soils Inc are hosting a field day/ meeting beginning at 9.00am at "Bindaree" Garnant. (42km from Rockhampton)

Measuring Carbon in grazing soils today (CQ University) and Trading Carbon in the future.

Guest Speaker - Dr Thakur Bhattarai and Prof Kerry Walsh from CQUniversity will be presenting the latest information on the carbon farming initiatives, base line soil carbon measurement, C credits aggregation and the First One Million Tonnes challenge, potential for local graziers, healthy soil and analysing soil nutrients, and CQUniversity's resources, capacity and interest. CQU has just established collection and analysing equipment locally and and begun collecting soil cores to assess carbon levels. A first for the Central Queensland, possibly throughout the Queensland in soil carbon assessment! This will be your chance to see a soil coring rig operating and to ask questins about its relavance to your business.

Sustainable Grazing/ Feed Budgeting/ Future projects.

Its been 8 years since the rotational grazing began and development is still happening. The Jones and Alexander families have undertaken a substantial development program to improve carrying capacity, pasture health and profitability. This field day will look at the staged developments, watering systems and fencing as well as the benefits of soil health and managing nutrients. During the day we will also look at how to conduct a feed budget. Lots of fun. Come along for one session or all - please ring to confirm (for catering)

**See you there at BINDAREE 42km from Rockhampton,  
SATURDAY July 12th - 9.00 am start - smoko supp and byo lunch**
