What foods are Genetically Modified?

Who is approving GMO foods?

Is GMO feed safe for livestock?

How do we know if we are eating GMO food?

Are GM foods labelled ?

Dr Jonathan Latham

Dr Judy Carman

Dr Oliver Knox

What an amazing list of Experts

Keynote speaker -

Dr Jonathan Latham. PhD - A former genetic engineer and one of the worlds leading experts on genetic modification. He is the co-founder and executive officer of the Bioscience Resource Project and editor of Independent Science News. Dr Latham holds a Masters Degree in Crop Genetics and a PhD in Plant Virology. He was subsequently a post doctoral research associate in the Department of Genetics , University of Wisconsin, Maddison.

Dr Judy Carman has a BSc, an Honours Degree in Organic Chemistry, a PhD in Medicine in the field of nutritional biochemistry and metabolic regulation and a Master of Public Health, specialising in epidemiology and bio-statistics. Dr Carman is a world expert on the risk assessment of genetically modified crops and has conducted research in this area for more than a decade.

Dr Oliver Knox BSc, PhD is originally from Scotland with degrees from Uni of Aberdeen in Genetics and Plant Soil Sciences. He worked in Australia in the cotton industry from 2003 - to 2008 and again from 2014 to present day when he works for the Cotton RDC.
