

HEALTHY SOILS INC

FIELD DAY

JAMBIN AND BILOELA AREAS

SAT 22ND FEB

"Learn about pasture establishment, grazing systems and soil health in the Callide Valley region"

Restoring Degraded Soils

Healthy Soils Inc are hosting a field day beginning at 9.00am at Bongers Farms, 42832 Burnett Hwy, Jambin. (25km from Biloele)

This program will look at the Bongers Families attempts to restore heavy black soils that were highly degraded during the 2013 floods. This will include a Lab lab pasture establishment and a Progardenes Desmanthus trial planted by Peter and Tony Bongers. The Bongers family are converting farming land to an exciting new grazing system to reduce impact of over-land flow. Come along and check out their success.

Guest Speakers will include: Ian Hannah and Chris Gardener from Progardenes/ Agrimix and Mick Alexander from Grazing BestPrac.

Rotational Grazing/ soil management.

After lunch we will be travelling to Keith Rea's property at 2371 Drumberle Road, Thangool (39 km from Biloele). Keith has established a managed rotational grazing system, while considering soil health and managing nutrients. Come along for one session or both - please ring to confirm (for catering)

**See you there at Bongers Farm
25km from Biloele SATURDAY February 22nd
