Healthy soils Inc is hosting a full day field-day with the support of Permaculture Mackay and our Landcare Facilitator (Kate Wilson). The day will include:

- Keyline principals
- Property design
- Building Swales/ contours
- Selecting trees
- Management after construction.

The field day is being held at Donald McCartneys property to develop a pasture regeneration program for Indian Couch pastures. The first stage will be to reduce runoff and increase infiltration. We will view existing constructed banks and also ideal design / layout for this landscape.
